

## **Project Design Phase**

**Empowering India – Analysing the Evolution of Union Budget**

## 1. Planning Logic – Story Points & Sprint Allocation

| Module             | Description                                  | Story Points |
|--------------------|----------------------------------------------|--------------|
| Data Collection    | Historical Union Budget datasets integration | 20           |
| Analytics Engine   | GDP, Fiscal Deficit & Allocation analysis    | 25           |
| Dashboard UI       | Interactive visualization portal             | 20           |
| User Features      | Tax calculator & comparison tools            | 15           |
| Testing & Security | Performance, compliance & validation         | 20           |
| Total              |                                              | 100          |

### ***Sprint Plan:***

- Sprint 1 – Requirements & Data Setup (20 points)
- Sprint 2 – Core Analytics Development (25 points)
- Sprint 3 – Dashboard Implementation (20 points)
- Sprint 4 – User Tools Integration (15 points)
- Sprint 5 – Testing, Deployment & Documentation (20 points)

## 2. Project Planning Phase – Burndown Chart

Total Story Points: 100
